

Community Harvest Festival First Baptist Huntington Beach/Fountain Valley

Recently we hosted a Harvest Festival for the community. Our children's pastor, Amy Booth, received permission from the local school district to distribute flyers inviting all the children in the schools to the event. One side of our church property borders one of the schools and the 2nd school was very close by also. Amy also decided to move the festival from the back of our property to right off the main street so we it would be more accessible to our neighborhood and community. It was a huge success. We really enjoyed serving our neighborhood.
